

Respected,

We would like to invite you on 4th International conference of the Water agency Association with main topic »Impact of international communication on our water footprint« on October 5th 2018 in Ana's Mansions in Rogaška Slatina, Slovenia.

The objectives of the conference: Priority of the project the Water agent is partnerships and networking with the goal of creating international cooperation in ensuring effective action in the field of water and water resources protection. Water and water currents do not know the boundaries. Accordingly, we must all together show responsibility for protecting, protecting and preserving water primarily on a personal level. The Water Agency's conferences are an opportunity to present the achievements in the development of the Water Agent in schools in the wider region and present related projects with which we are establishing partnerships.

This year, we focus on the Water footprint as the impact of each of us on water and water resources. Therefore, in addition to the schools participating in the project and the utility companies that support them, companies and entrepreneurs choose their own business and have a social responsibility and responsibility towards.

Welcome!
